

### Produktbeschreibung

Refurbished 2-rack roll cage is a practical transportation solution for various applications. Refurbished refers to the fact that the roll container has been refurbished to bring it back to good condition so that it can be used again. In this case, it is a roll cage with a new roll bottom and used insert gates. Using refurbished roll-off containers can help businesses lower their costs while contributing to sustainability and environmental preservation. It is an environmentally friendly option because it helps reduce waste and encourages the reuse of existing materials. Moreover, refurbished roll cages are just as effective as new roll cages.

The rolling cart is equipped with 2 used removable clamp gates made of galvanized steel, keeping the load safely in place during transport. Comes standard with 2 nylon webbing straps to hold the goods firmly in place and prevent them from sliding or falling. The roll cart is equipped with a new wooden roll bottom with dimensions of 720x800 mm, which provides enough space to load and transport goods efficiently. Due to the width of 720 mm, exactly 3 roll containers fit side by side in a trailer. The roll bottom is sturdy and durable. To easily move the roll container, it is equipped with 2 fixed-wheel and 2 swivel wheels made of nylon with a diameter of 125 mm. Nylon casters provide high carrying capacity, maneuverability and smooth mobility. Are you temporarily not using the roll cages? Deal efficiently with your storage space and remove the clamp gates from the roll bottom and make a bundle (see last photo). In short, an indispensable tool used in various industries such as retail, supermarkets, logistics, distribution and manufacturing.

### Spezifikationen

Artikelzustand: Gebraucht

Ausführung: Klemmwände + 2 Nylon-Spanngurte

Wände: Runggengestell

Bereifung: Vorderseite: 2 Lenkrollen, Nylon, 125 mm

Bereifung: Hinterseite: 2 Bockrollen, Nylon, 125 mm

Oberflächenbeschaffenheit: Feuerverzinkt mit gebrauchsspuren

Innenlänge (mm): 800

Innenbreite (mm): 660

Innenhöhe (mm): 1500

Typnummer: 7101GB

EAN: 8719424231816

Typ: 2-Wand refurbished

Material: Stahl

Boden: Holz

Subgruppe: Rollwagen Gebraucht

Farbe: farblos

Länge (mm): 800

Breite (mm): 720

Höhe (mm): 1700

Gewicht (kg) : 24.5

Extra Spezifikationen: Nylon Räder
